Information we need from you

We handle everything technical and commercial: affiliate applications, store feeds, tracking links, hosting and accounts. You only send the information and documents below, and sign where a program requires the company's signature. Blocks launch items stop us from going live; Needed soon items can follow shortly after.

1 Company details, for affiliate applications we submit for you

1.1	**Company details**: legal name, trade name, commercial registration number (with a copy), VAT or tax number, registered address, website name you want (for example doabno.com).	Blocks launch
1.2	**Authorized signatory**: name, job title, email and phone of the person who can accept affiliate terms for the company. Agreements are sent to them to sign electronically.	Blocks launch
1.3	**A signed authorization letter** allowing us to apply for, and manage, affiliate and store accounts on the company's behalf. We provide the template.	Blocks launch
1.4	**Payout details** for commissions: company bank name, account holder, IBAN, SWIFT, currency. Plus any tax form a program asks for; we will tell you which and prepare it for signature.	Blocks launch
1.5	**Anything you already have**: existing affiliate accounts, store contacts or agreements, and any stores you insist on listing. If none, we choose the stores and networks.	Needed soon

2 Legal approval

2.1	**Name and contact of your Saudi legal adviser.** We send them one question: may user accounts, favorites and price alerts be stored on servers outside the Kingdom (we plan Frankfurt), or must we host in Saudi Arabia? Their written answer is required. The Saudi data-protection law (PDPL) applies either way.	Blocks launch
2.2	**Approval of the legal texts** we send you: privacy policy, terms of use, disclaimer, cookie policy and affiliate disclosure. The current texts are placeholders and must not be published as they are.	Blocks launch
2.3	**A contact for privacy requests**: the person or email that answers user data requests within 30 days.	Blocks launch

3 Ownership and people

3.1	**The email address that will own the technical accounts** (database, hosting, email service). We set everything up and transfer ownership to it.	Blocks launch
3.2	**Permission to register the website domain in the company's name**, with a billing contact for the small yearly fee. We do the setup and the email-sending configuration.	Blocks launch
3.3	**Admin users**: name, email and role (owner, catalog, partners or analyst) for each person who will use the admin portal.	Needed soon

4 Content and decisions

4.1	**Approval of the final screens** (English and Arabic) and the Arabic wording.	Blocks launch
4.2	**About us text** (mission and vision) in English and Arabic, if different from our draft.	Needed soon
4.3	**Other Gulf markets** (Qatar, Kuwait, Bahrain, Oman): which to add first.	Needed soon
4.4	**Native app decision**: is an App Store and Google Play listing required, or is an installable web app enough? A listing needs Apple and Google developer accounts in the company's name; we do the setup.	Needed soon

Please send first: 1.1 company details, 1.2 the authorized signatory, 1.3 the signed authorization letter and 2.1 your legal adviser's contact. Affiliate approvals take weeks, so these four start that clock. Everything else is on our side.
